

# The Greens

AT PELICAN POINT  
A 55 & BETTER LIFESTYLE COMMUNITY

## WELCOME TO THE GREENS...*Our Award-Winning Community!*

Mature adults have spent a lifetime caring for others. Their later years should be a time to indulge themselves and fully enjoy life, 'to do their own thing.' That's why we have created a very special place within Pelican Point called The Greens.

Although, exclusively for those of age 55 and over, this is *not* your traditional retirement community ~ It is a vibrant, friendly community for those who want to stay active, and involved with those around them. It is a place where residents can enjoy with close friends a variety of recreational and sports activities, hobbies, weekly events, special outings and social events, or just a cup of coffee with their neighbor. That's why we say, "un-retire to The Greens."

## MEET THE MATHERNE'S

Pat and Millie Matherne moved to The Greens in May 2005, a month before Pat retired from Marathon Oil and Millie from the St. James Parish School Board. Their son Patrick Jr. lives nearby in Prairieville with wife Chantelle and teen grandsons, Andrew and Austin. Daughter Jamie and husband Bryan Satter live in Salem, Massachusetts, with new granddaughter Celina Jean (much too far away for Papa and Gam, who are now racking up frequent flyer miles).

The Mathernes feel fortunate to have had Josh Lavigne supervise the construction of their home. Josh, in his first assignment with Acadian Builders, was conscientious, easy to work with, and met with Pat weekly to discuss the building progress.

Why move to The Greens after living your whole life in St. James Parish, only 20 miles away? Like many baby boomers, the Mathernes wanted to downsize, but Pat's long-time dream of living on a golf course was fulfilled with the move to The Greens. After a round of golf just about every day, Pat can be seen bicycling through the subdivision on his ten-mile ride. Millie, on the other hand, was much more skeptical about leaving her hometown, family, and friends but readily admits that moving to The Greens has been so much better than she could have ever imagined. She keeps busy with fun, fun, fun, such as walking most mornings, water aerobics, book and garden clubs, ladies' outings, and serving on the social, decorating, and facilities governance committees. Pat and Millie laugh that they are so busy in the morning doing their own thing that they usually don't meet up with each other until mid-afternoon – and it's making for a happy retirement!

Why do the Mathernes love The Greens? Well, there's certainly never a lack of entertainment with all the social activities, making so many new friends, living among such caring neighbors, and a great home with lovely view. As Pat says, "This is paradise!"
